MEMORANDUM FOR: THE DIRECTOR

The attached proposed letter to the Director, Office of Defense Mobilization, is responsive to his letters of 20 and 23 June 1958. It designates me as the officer responsible for the pre-positioning of Presidential Emergency Documents and for their storage and emergency implementation. This puts into effect an arrangement which has, in fact, existed for more than two years.

In addition, it assures him of our compliance with his request for the return of the Emergency Code Word List which was compromised by another Federal agency, and it apprises him of our request for additional copies of the documents and of the revised List, and justifies our need therefor.
